

assisting aspiring and talented athletes in Ipswich reach their potential

Team Ipswich Sports Foundation has one clear aim - to help aspiring and talented athletes in Ipswich who need a helping hand to reach their potential.

Unfortunately our future champions, the talents of today who have the potential to become Olympic and Paralympic stars in London 2012 and beyond, often miss out on grants. This is because the majority of public funding goes to established sportsmen and women who are already competing nationally and internationally.

GRANTS

Team Ipswich Sports Foundation grants are given to support local athletes who are recognised as athletes of potential. The grants can be spent on costs associated with training or competition. Grants from the Sports Foundation have already been given to a number of local athletes who have gone on to succeed at a international level.

FUNDRAISING, SPONSORSHIP AND EVENTS

The Team Ipswich Sports Foundation fund is raised through high profile events. Supporters including Steve Cram MBE and Sharron Davies MBE have helped the foundation raise funds alongside donations from local businesses and fundraising by individuals.

“ Sadly there are many talented people throughout the country who miss the opportunity to excel in their chosen sport due to the unavoidable costs of things like equipment, coaching, travel and access to facilities. Initiatives such as the Ipswich Sports Foundation can make a real difference to these people and with it sport in the country. I support Team Ipswich Sports Foundation wholeheartedly and everything it is trying to achieve. ”

Steve Cram MBE
